PROFILE

Information Technology student (CGPA: 7.4) with hands-on experience in front-end development. Seeking a Software Development Engineer role to create impactful, user-centric solutions and further enhance skills in system design and data structures.

EDUCATION

Rungta College of Engineering and Technology, Bhilai

B.Tech in Computer Science

–Present

- CGPA: 7.4

SKILLS

Technical

- **Languages** – C++, Java, JavaScript
- **Frameworks Libraries** – React 19, Next.js 15, Node.js, Express
- **Databases** – MongoDB, SQL
- **Concepts** – Data Structures and Algorithms, Object-Oriented Programming
- **Tools** – VS Code, Git, GitHub

PROJECTS

Movie Explorer – Dynamic Film Discovery Platform

- Developed a responsive web app using React, JavaScript, and CSS for real-time movie browsing.
- Integrated TMDb API to fetch dynamic movie data including posters, ratings, and trailers.
- Optimized UI/UX design for better engagement and seamless cross-device experience.

CareerConnect – Job Portal Web Application

- Built a full-stack job portal using React, Node.js, Express, and MongoDB.
- Implemented JWT-based authentication, role-based dashboards, job posting, and application tracking.
- Enhanced scalability with pagination, filtering, and a fully responsive design.

CERTIFICATIONS

- **MERN Stack Development Bootcamp** – Developed and deployed full-stack apps using MongoDB, Express, React, and Node.js, including JWT authentication and Stripe payments.
- **Data Structures and Algorithms with C++** – Solved 150+ questions in VS Code environment.
